Eggshell Votives

I love this idea from Martha Stewart Living

Simple eggcups make a lovely base.

Supplies Needed:

Eggs
Pin
Food coloring
Egg carton
Candle wicks
Wax
Funnel
Dye pellets

Directions:

First, make a hole in the top of each egg with a pin; enlarge the holes, and pour out the yolks. Clean shells, then dye them with food coloring (follow package directions).

Nestle shells in a carton. Cut wire-core wicks to 4 inches long, flatten one end, and fasten in shell with a bit of warm wax.

Using a funnel, fill shells with hot wax (tinted with dye pellets). Let the wax cool. Trim the wicks, and light.
